

Wi-Fi code

Wi-Fi code is: oleander2020

Dishwasher

We will leave dishwasher tablets under the sink. When using the dishwasher you will need to add **one teaspoon** of citric acid which is in a white tub. This will help breakdown the lime scale in the water during the washing cycle. The citric acid goes into the detergent compartment on the inside of the door. The dishwasher tablet can be placed in the bottom of the machine.

Wild Fires

We need to ask for your cooperation to avoid wild fires and be cautious. If you use the barbeque, at the end of the evening could you please dampen down the embers with water before you go to bed. If you smoke could you please ensure your cigarettes extinguished in an ashtray. Please be careful if you light candles or burn mosquito coils and make sure they are extinguished before going to bed.

Swimming pool

The swimming pool filter is on a timer which will clean the pool during the day and night. During the evening and night time can you make sure that all floating aids such as lilos are taken out of the pool so that it doesn't block the skimmers as the skimmers will not be effective or work properly. The pool will be service early Thursday and Monday mornings. The pool light is also on a timer during the evening. There is also a net available to scoop out any leaves etc.

Local Cats

Occasionally there are cats which may come to the villa. Could we kindly ask you NOT to feed the cats or encourage them to stay the villa as not everyone likes them to be around. As animal lovers we would encourage you to feed the cats, you can buy cat biscuits and feed them at the top of the road which leads to the villa. We would really appreciate your cooperation with this.

Air Conditioning

Air conditioning is available at the villa in the bedrooms. This hasn't been costed in the price of the villa as it is optional and not everybody is a lover of air conditioning. We do provide fans in both bedrooms and the lounge. If you would like air co. we can arrange this for you for €7.00 euros per unit per day. Please let us know on arrival at the villa.

Toilet paper

Please could you not put any paper down the toilet and use the small white bins provided at the side of the toilet. If paper goes down the toilet it will block the drains and a plumber will need to be called out to fix it.

Mosquito machine

There is a fly/mosquito blue light machine located outside above the patio doors. This may help prevent mosquitoes in the evening but is only effective when it is dark. You can plug this in and the plug is located behind the shutters. Please can you ensure this is unplugged before you go to bed and during the day.

Water and power cuts

On occasions there may be power and water cuts on the island. This is quite normal and part of day to day living on the Greek islands. Is you do have a power cut could you please advise us when the power is back on so we can come and re-set the times for the pool and the garden lights. Sometimes, but not always we are given notice from the electric company if there is going to be a power cut so we will let you know in advance if we know.

Garbage

The rubbish bins are not collected at the villa and you will need to take the rubbish to the green bins which are located on the main road. There is a small rubbish bin at the back of the villa. Could you please ensure the lid is always on and the rubbish is emptied on a daily basis to avoid any smells or pests.

Sun Parasols

Occasionally we have the mistral wind on the island which can pick up in the afternoon. Can we kindly ask you to be careful with the sun parasols around the pool as the wind can blow them over and damage them. If it does get windy can you close and secure them with the straps and ensure they are closed when you leave the villa in the evening or when you are not around the pool during the day.

Safety deposit box

There is a safety deposit box available for you to use in the master bedroom wardrobe and the code is 0161.

Water timers

Just for your information there are four water timers in the garden which will automatically come on between 22:00 and 23:00 for 15 minutes each timer.

Bathtub

If you use the bath and pull the plug out fully the water will come up through the hole in the floor as the drains are not wide enough to carry the water away quickly. Please could you pull the plug out of the bath but leave it in half as the water needs to empty slowly and it will avoid coming up through the floor.

Outdoor cushions

We provide cushions for the sunbeds and outdoor dining chairs which are located in the washing machine room. Please can you ensure these are returned during the evening as the cats may sleep on them. The outdoor seating cushions by the patio are fine to keep out at night time.

Key safe

Accessing the property on your arrival day: The key for the villa will be in the key safe and the code for the safe is: 0161. The Key safe is located on the inside of the stone archway near the white door to the washing machine room.

Washing Machine & TV

There is a washing machine at the villa to use and we will show you on arrival how to use it.

We have live UK TV (But it is two hours behind due to the time difference) available which works via the internet. You will find the instructions are at the villa and we will show you on arrival how to work it.

Your arrival at the villa

Check in time at the villa is 15:00 however we will do all we can to ensure you can enter the villa as early as possible after arriving in Corfu. This will depend on the time the people check out on your arrival day. Please could you text us a mobile number we can call you on and we will phone you if we can get the villa prepared earlier than 15:00. We will arrange a time to come and meet you at the villa when you have settled in to help you get orientated and answer any questions you may have. Please text us your mobile number to: 07880-548548. (You can do this now)

We will always be available to help and assist you during your holiday. You can email or phone us. We wish you a great journey to Corfu and a very happy holiday.
